Independent Auditor's Report

To the Trustees of Bryn Mawr College:

We have audited the accompanying financial statements of Bryn Mawr College. The financial statements comprise the statements of financial position as of May 31, 2015 and 2014, and the related statements of activities and of cash flows for the years then ended.

Management's Responsibility

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Bryn Mawr College as of May 31, 2015 and 2014, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

1 Organization

Bryn Mawr College (the College) is a private institution of higher education founded in 1885 and located in Bryn Mawr, Pennsylvania on an historic and picturesque suburban campus less than ten miles from the downtown center of Philadelphia.

The Undergraduate College offers a four-year, residential experience to approximately 1,365 women representing 45 different states and 57 different countries with an expansive, customizable liberal arts curriculum of over 37 majors and 41

achievement at other institutions of the time. The College continues its support of master and doctoral programs via its Graduate School of Arts and Sciences and its Graduate School of Social Work and Social Research. Both graduate schools are coeducational and their full-time equivalent enrollment was approximately 280 in academic year 2014-2015.

the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and other investments with a maturity of three months or less at the time of purchase are reported as cash equivalents. Cash and cash equivalents representing assets of the endowment and similar funds are included in long-term investments.

Contributions Receivable

Contributions, which include unconditional promises to give (pledges), are recognized as revenues in the period received at their net present value, less an allowance for estimated uncollectible amounts.

Fair Value of Financial Instruments

The Col and other financial instruments are reported at fair value. Fair value represents the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants as of the measurement date. Investments are then classified and disclosed in one of the following categories based on the lowest level input that is significant to the fair value measurement in its entirety:

- x Level I Quoted prices in active markets for identical assets or liabilities, at the reporting date, without adjustment. Market price is data generally obtained from relevant exchange or dealer markets.
- x Level II Pricing inputs, including broker quotes, are generally those other than exchange quoted prices in active markets, which are either directly or indirectly observable as of the reporting date.
- x Level III Pricing inputs are unobservable for the investment and includes situations where a) there is minimal, if any, market activity for the investment and b) the inputs used in

As a practical expedient, the College estimates the fair value of an investment in an investment company at the measurement date using the reported net asset value (NAV). Investments in private equity, real assets and certain hedge funds are generally valued based on the most current NAV adjusted for cash flows when the reported NAV is not at the measurement date. This amount represents fair value of these investments at May 31, 2015.

The College performs additional procedures including due diligence reviews on its investments in investment companies and other procedures with respect to the capital account or NAV provided to ensure conformity with US Generally Accepted Accounting Principles (GAAP). The College has

standard, price transparency and valuation procedures in place, the ability to redeem NAV at the measurement date and existence of certain redemption restrictions at the measurement date.

Cash and Equivalents

The carrying amount approximates fair value because of the short maturity of these instruments.

Short-Term Investments

Short-term investments include cash equivalents and fixed income investments with maturities between three and twelve months. Short-term investments are valued using observable market data to the degree that they can be valued based on quoted market prices in active markets. The majority of these short-term investments are fixed income instruments.

Fund Raising Expenses

Direct expenses for fundraising were \$4,207 in 2015 and \$4,195 in 2014.

Tax Status

The College has been granted tax-exempt status as a non-profit organization under Section 501(c) (3) of the Internal Revenue Code, and accordingly, files federal tax Form 990 (Return of Organization Exempt from Income Tax) annually. The College also files federal tax Form 990-T (Exempt Organizations Business Income Tax Return). The College monitors and evaluates its activities for unrelated business income.

Other Assets

Other assets include prepaid expenses and inventory which is valued at the lower of cost or market.

Reclassifications

Certain amounts in the prior year may have been reclassified to conform to the current year presentation.

Derivative Activity

In 2006, the College entered into two swap agreements by which the College and counterparty exchanged payments based on variable interest rates. The swaps were originally associated with the 1997 Bonds (subsequently refunded by the 2007 Bonds) and its 1999 Bonds (subsequently refunded by the 2010 Bonds). The payments paid by the College were based on a tax-exempt variable rate index while the amounts the College received from the counterparty were based on a taxable
